

Name _____

Garden Pests and Problems: Insect Show and Tell

Present a “Show and Tell” about a beneficial insect. **Choose** one of the insects listed below and **look it up** at your library. You can use books, magazines, or the Internet to gather insect information. **Write** a report about the insect, including how the insect helps control pests, its role in the garden, and anything else you discover. **Include** a photograph, drawing of the insect, or mounted insect specimen and share your findings with your group.
