

## Growing Fruit: Apple Star Prints

You can **make** your own special paper to use for wrapping paper, cards, or pictures.

**You need:** several large, washed apples

paper

tempera paint

paper plates

knife

**Cut** the apples in half (cross-section as shown). Cut the center core in the shape of a star. **Put** one color of paint on a paper plate. **Do** as many plates of color as you wish. **Dip** the apple half, cut side down, in the paint on a plate.

**Stamp** the apple onto the paper. **Keep** stamping with the same apple and paint color, or **use** another apple in a different color of paint. **Let** the paper dry completely before using.
