Sustainable Agriculture Practicum
Spring 2015 Course Offering

A hands-on field course in sustainable vegetable production at the Urban Horticulture Center and the six-acre Dining Services Farm at Kentland Farm.

- Conduct all aspects of running a diversified vegetable farm, including planting, cultivation, irrigation, season extension, harvest, and post-harvest handling.
- Develop skills for working safely, efficiently, and cooperatively in agriculture settings.
- Contribute to the Virginia Tech campus food system by growing veggies served in dining halls!

This course is open to all majors in the College of Agriculture and Life Sciences.

HORT 4984: 2 Credits
Tues – Thurs 9 – 12
